# LITHONIA X

Your hardcore, heavy lifting, tough as nails, collection for the even the most challenging industrial applications featuring 3 of the hardest workers from Lithonia Lighting® – **FEX, XIB, and JHBL.**

Heavy industrial applications can be rough on the people and products in the space. When there is dust, chemicals, heat and moisture to contend with, you take a risk when you try to solve the problem with an ordinary fixture.

---

*These are not your everyday applications, so they require more than your everyday solution.*

## The “X” Specifications

Lithonia Lighting® has spent the last 75 years providing the most versatile and reliable solutions in lighting...and while its easy to equate quality and performance with any Lithonia Lighting product, you might not immediately consider them when specifying an extreme or true industrial project. However, with 3 products featuring exceptional specs, ratings and designs, Lithonia Lighting is equipped to handle nearly any extreme application.
